Product data sheet Spirotech

Product name

SpiroVent Superior S600-L -Insul

Article number

MV06AL50I

Product properties

A fully automatic vacuum degasser for closed heating, cooling and process systems with a pressure between 1 and 3 bar.
I: insulated
B: with break tank
R: with direct refill

- Applicable for systems with pressures between 1 & 3 bar
- Removes all gases, free air, microbubbles and dissolved gases
- Absorptive fluid ensures the removal of trapped gas bubbles
- Easy installation, reducing commissioning and handover
- Energy-efficient whilst still achieving the lowest possible gas concentration thanks to SmartSwitch
- Degassed (re)filling and sustained pressure
- Warns before (re)filling becomes excessive
- Can team up with all common expansion systems
- Remote access via LAN or Wi-Fi
- The B and R versions have an integrated automatic refill system
- Two-year guarantee

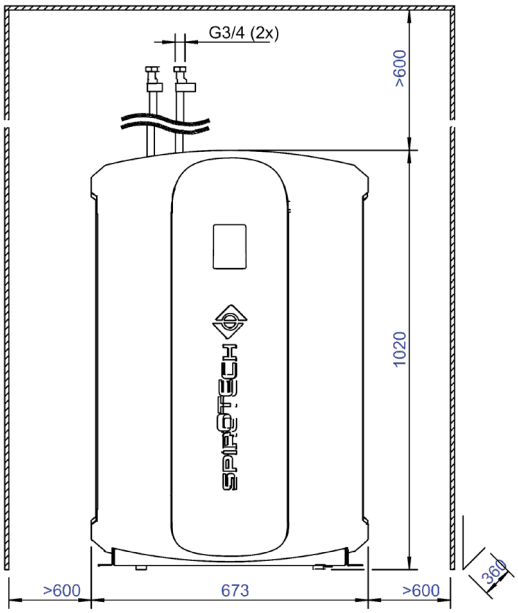
Product dimensions



Product data sheet Spirotech

ETIM product data

Height	1020 mm
With insulation	Yes
Max. glycol mixture	40 %
Article pressure rating	PN 10
Suitable for closed system	Yes
Max. installation content	325000 l
Width	673 mm
Depth	360 mm
Connection voltage	207 - 253 V
Max. flow rate	1000 l/h
Connection size inlet	3/4 inch
Connection inlet	Internal thread cylindrical BSPP-G (ISO 228-1)
Connection size outlet	3/4 inch
Connection outlet	Internal thread cylindrical BSPP-G (ISO 228-1)
Frequency	50 Hz

Sound pressure level	57 dB(A)
Ambient temperature	0 - 40 °C
Degree of protection (IP)	IP44
Operating pressure	1 - 3 bar
LAN connection	Yes
Max. electric power input	0.8 kW
Wi-Fi	Yes
With communication interface RS-485	Yes
Communication interface inverter MOD-Bus	Yes
Bluetooth	No
Supporting protocol for BACnet	No
Potential free switch contact	Yes
Touchscreen operation	Yes
Remote controllable function	Yes
Nominal current	5.1 A
